

New Authentication process:

We have simplified the process for authentication for users. Your parents will now be able to set their own password for your Communicator. They will need to click on the Request a Password option on the Communicator which will open a webpage as shown in the example below.

The parent needs to type in their email address, then set a password (which needs to be more than 8 characters) and click Submit. If their email address is listed in your Users tab in the d6 Admin System, they will receive a message stating that they will be sent an activation email as shown below.

You have successfully been registered! You will receive an email shortly to verify your email address. Once verified, you will be able to login.

An activation email will be sent to their email address - once they have clicked on the link to activate their account they will then be able to use their email address and password to login to the Communicator. If the email address the parent types in when setting their password is not listed in your Users tab in the admin system, it will give them a message stating that their email address can't be found. They will need to make sure they use the email address you have loaded for them, or their email address still needs to be loaded by the school.
